Penicuik High Street Public Realm Improvements

Current work to improve the safety and appearance of the High street is now complete with wider footpaths paved in yorkstone, granite sett car layby and services bays and a resurfaced carriageway.

The work took longer than expected due to the unforeseen condition of the road sub-base and the discovery of a Victorian culvert under the pavement in the High Street.

The Penicuik Heritage Regeneration Project Team apologies for the inconvenience this has caused residents and business and thank them for their patience during the work.

This newsletter highlights the progress made with the Penicuik Heritage Regeneration Project since the launch in December 2018, and is a reminder of how grants can be obtained.

How do I find out more about the scheme?

For more information about the scheme contact:

Rod Lugg, Penicuik Heritage Regeneration Project Manager, Lasswade Room, Penicuik Town Hall, 33 High Street, Penicuik, EH26 8HS.

Telephone: 01968 664 041
Mobile: 07545 551356
Email: rod.lugg@midlothian.gov.uk
The Penicuik Heritage Regeneration project building grant scheme is up and running.

What grants are available and who can apply?

Owner/tenants of eligible buildings, as shown on the plan can apply. Grants are for the repair and restoration of historic buildings and shopfront improvements.

There are 6 high priority buildings, a number of medium priority buildings and reserve buildings. The high and medium priority buildings will be considered first. The grants are up to 75% of the eligible cost of the work and include construction costs and fees.

For details of how to apply for grants and copies of the application form and guidance notes visit [www.penicuikheritage.org.uk](http://www.penicuikheritage.org.uk)

Traditional Construction Skills

Training Plan

A training plan provider will be procured in order to deliver a programme of workshops that will be available for homeowners, contractors, building professionals and apprentices to gain knowledge and practical skills in traditional building repair techniques and materials. A programme for local schools will also be developed.

It is anticipated that this will be in place by the summer so that the workshops can start in the autumn.

Seminars will also be held. The first one was held on 25th April at the Town Hall and approximately 40 people attended.

Historic Buildings need TLC

Many of the buildings in the town centre are in need of repair/restoration. There are often interesting histories and memories attached to these buildings. Penicuik History Society have many old photographs and records that give a fascinating insight into the history and heritage of the town.

Visit their website [www.penicuikpapermaking.org](http://www.penicuikpapermaking.org)

More information on the grants that are available is provided in the "Grant Eligible Building Work" leaflet.

Community Engagement Programme

An important part of the Penicuik Heritage Regeneration Project is education and awareness raising of the history and heritage of Penicuik. Contact is being made with a number of community groups.

Work has begun with the Penicuik Historical Society to make their valuable collection more accessible, and to safeguard it for the future. At present, the cataloguing and digitisation of the photographic collection is well under way. This is being aided by working closely with the Society as well as new volunteers – in particular with local young people from the Duke of Edinburgh Award.

Working with Archaeology Scotland, an Open Day at St. Mungo’s Church grounds has been scheduled to coincide with the Penicuik Hunter & Lass on May 25th. This will provide local people with the opportunity to get a taste of archaeology practise as well as gaining a better understanding of the importance of the site.

The Penicuik Heritage Regeneration Project Team apologises for the inconvenience this has caused residents and business and thank them for their patience during the work.
