

Penicuik Heritage Education

‘Bringing
Penicuik’s
heritage to
life’

Explore Penicuik’s traditional buildings through free hands-on creative and interactive workshops.

The programme can cater for a wide range of groups, from schools to adult learning.

As part of the Penicuik Heritage Regeneration Project we want to make sure that heritage is cherished, understood, valued, shared and enjoyed with pride by everyone.

Our programmes will suit all styles and levels of learning.

SCHOOLS

Workshops for young people are led by dedicated members of the Penicuik Heritage Regeneration team. Our activities bring in STEM subjects and the core conservation theme of traditional buildings, materials and skills.

COMMUNITY GROUPS

Activities and workshops can be tailored for individual community groups and adult learning.

We hope to inspire and reveal how science, craft skills, innovation and tradition are combined to conserve Penicuik's unique built heritage.

Contact our team to request information and to arrange a workshop or activity.
